## Pack Observes Nat. Boy Scout Week; Abuisi and Cullen Active in Cubs

Cub Pack 72 of Freeman School celebrated the 42nd anniversary of the Boy Scout movement with a Blue and Gold party.

Pack 72 of Freeman School, North Adams was formed two years ago during National Boy Scout Week, which was observed this year from February 6-13. Mr. Anthony Abuisi, husband of Angela Abuisi of Metal Clad Tubular Assembly, is the Cubmaster of this pack; and Tom Cullen, of Planning and Methods, is his assistant and committee man. Pack 72 has five dens. Mrs. Cullen is one of the den mothers as is Mrs. Frank Bush, wife of Frank of Research and Engineering.

These Cub parties are called Blue and Gold to designate the uniforms of the Cubs which are blue and gold.

Mr. George Giroux, Manager of Industrial Food Crafts in our plants, donated the large decorated birthday cake which is shown in the picture.

Cub Pack 72 is one of the many scout units in the Trail District of Berkshire Council Boy Scouts of America—the area which includes North Adams.

## Management Dinner Well Attended; Several Out-of-Town Guests Present

On February 9, 206 people gathered in the Blue Room of the Richmond Hotel to enjoy the annual management dinner dance.

Dinner and dancing to the music of Eddie Ames and his orchestra was enjoyed. The tables and the hall had been decorated in a Valentine motif and the ladies were presented with corsages of red camellias.

Out-of-town-guests included Alvin Schils, of the Sprague Electric Nashua Division, William Stifler, of the Ferroxcube Corporation, and Richard Hughes, an employee of the Herlec Corporation who is undergoing a training program here in North Adams.

Courtney Flanders, of the Employee Relations Department, made the arrangements for the dinner dance. Mr. Flanders announced that this year the attendance at the party reached a new height. The 206 people who attended showed an increase of approximately 50 persons over last year.

## N. A. Music Association Makes Drive For Members

The North Adams Civic Music Association opens its third year with a drive for a larger membership during the week of March 3 - 8.

It is good for a community to have an organization whose objective is to build and improve the cultural values locally. It is hoped that the present membership of 500 may be expanded to 900 during this coming drive. The support of all music lovers is needed.

Last year we enjoyed Ferrante and Teichert, the piano duo, Brian Sullivan, Metropolitan tenor, and Beno and Sylvia Kabinoff, violinist and pianist.

This year we have had Jean Mitchell, violinist, Lawrence Winters, baritone; and we hope to enjoy Raymond Lewenthal, pianist, in the last concert.

Those who purchase memberships before March 5 will be allowed to attend the Lewenthal concert and may invite a non-paying prospective member as his guest. Adult memberships are \$6.00, and student memberships are \$3.00. Your Sprague representative is Mrs. Ruth Bass of the Mica Dept., whom you may contact by calling 3012.

### RIDERS WANTED

Leonard Foisy would like riders from Adams to the Marshall Street plant on the 7:00 a.m. to 3:45 p.m. shift. Leonard can be contacted by calling Miscellaneous Dry Rolling—DG 24 Assembly.

## Podolsky and Secretary Prepare Bib.

"Make Safety A Habit", a guide to safety, is enclosed with this issue of the LOG. This colorful pamphlet has been prepared by the Employee Relations Department. Its cartoon presentation of safety was designed for painless reading, and if the good advice in this booklet is followed, you will find your job painless also.

Acknowledgement goes to Mrs. Mary Gordon and Arthur J. Mathews, Safety Director, for conceiving this booklet which approaches safety humorously, and for selecting the cartoons. Final editing was done by Courtney Flanders.

## Charles Ryan Promoted To Ass't in Material Control

The American Institute of Electrical Engineers has published a new "Bibliography on Power Capacitors". This bibliography is the first attempt to list the literature on the subject of power capacitors and covers the years 1925 through 1950.

It was prepared under the supervision of a committee of which Mr. Leon Podolsky, Manager of the Field Engineering Department, was chairman. The major work on the bibliography was done by Miss Alice Herrmann, who worked for approximately 18 months in the collection of data for this publication. It was necessary to search references in 182 publications which were printed in countries all over the world. The work was done by Miss Herrmann at the Sprague Electric Company, in the Technical Library of the General Electric Company at Pittsfield, and at the New York Public Library. There are 918 individual articles tabulated in this bibliography.

Wonder what would happen if — **Vi Levesque** and **Rita Disanti** could stick to their diets and not fall for sour-balls and red skinned salted peanuts — **Edith Roy** and **Alvina Moreau** couldn't enjoy a good laugh — **Vi** couldn't crochet — **Doris, Ida, Ruth,** and **Mable Amos** couldn't sing?

A welcome to our new co-workers **Kay O'Connor, Frances Kordana, Emma Dube, Mable Amos, Ruth Allard, Norma Skorpinski,** and **Jennie Garceau.**

**Kay O'Connor** spent a week end in New York with her son, **John**, before he sailed away on a business trip for our Uncle Sam. We wish him luck and a safe return home soon.

We were happy to see **Rita McClintock** back on her old job.

**Hollis Brown**, the human dynamo, tells us his favorite song is "Oh, How I Hate to Get Up in the Morning".

Wonder where **Delia Gorman** gets all that energy.

The high school basketball season is almost over, but one of the strongest Drury fans is **Jo Gebauer**. She certainly loves that team.

**Stan Osizlo** bought a new 1952 Pontiac a couple of weeks ago.

The top tune of the week on the End Off Table is "Cry".

**Stanley Janik** received a mysterious Valentine. Who sent it, Stan?

### Test Equipment Engineering

by E. B. Ryan

**Dave Feder** has returned to the department after having spent the past six weeks at Brown Street. The breakfast club is glad to have you back amongst us, Dave. We missed you.

Congratulations to **Ed Lamphier's** daughter, **Marjorie**, who in her first

year at Drew University in Madison, N. J. has made the Dean's List for having obtained consistently high marks.

**Norma Luscier** is sporting new eye windows. The better to see with, my dear.

Tidbits: Did you know **Ed Lamphier's** side line was tailoring, trousers repaired a specialty, terms easily arranged. Have you heard **Bill Champagny** imitating **Beatrice Kay** in his rendition of gay ninety melodies? Have you noticed the s(p)lendorous results of **Norma Luscier's** diet? **Mary Cantoni's** new perm, a harbinger of spring? Have you heard **Alice Green's** spontaneous and contagious laughter? Listened to **Charlie Lincoln's** jokes? You haven't? Unlucky you, missing out on knowing these members of our Equipment family. Hope you'll meet us sometime.

by Choo-Choo

The week of February 17 is Brotherhood Week, a week set aside in the year during which all denominations will stress Brotherhood. You will undoubtedly be asked not to be prejudiced toward a person because of his religious beliefs or his color. To many, Brotherhood Week either will be forgotten or skipped entirely.

In a country like the United States, which has citizens of every religion and color, and these people are free to choose their own religious beliefs, there is no room for prejudices and jealousies. We all live and work side by side, Protestant, Catholic, and Jewish; white, negro, and yellow. Why then, don't we all follow the commandment "Love thy neighbor as thyself"? Why not follow this commandment every day of every year hence?

America must be kept strong in the next few trying years, and Brotherhood can do it. If we can all forget our differences and live side by side, Brotherhood can help our country starting today.

Remember, "united we stand, divided we fall". Will you do your part?

### Prokar and Polyester Impregnation

by N. Miller

Welcome to our department **Alease Morgan, Alice Domin, Dorothy Osborne,** and **Matthew Krzeminski.** Hope you like working with us.

**Reginald Rowett** was quite surprised when the girls and fellows had a birthday party for him January 31. **Alice Domin** made the delicious cake, **Nancy Doan** brought home-made baked beans, and **Dot Osborne** prepared an excellent potato salad. Hope you have many more, Reginald.

We feel sorry for **Norman Miller** who has been having more than his share of bad luck. First, his daughter was taken to the hospital. We are happy to report she is home now and feeling fine. Then, his tenant's oil tank which was attached to the furnace broke and 250 gallons of oil was lost in the cellar bottom.

We miss **Harry Brierley** who was transferred to Brown Street.

### Networks

by Mae and Marie

Hi folks. Guess yours truly has been on a vacation. At least there was no news to report.

Our department welcomes **Fernanda Luscia** and **Julia Gregalis** who recently returned to us after working for a short time in other departments.

Congratulations to **Edith Royal**, whose birthday was celebrated with gifts and a cake. Hope you have many more, Edith.

Also, we are glad to have **Evelyn Morton** back with us after being out sick.

We are happy to hear **Mr. Beaman's** wife is on the road to recovery.

Speaking of hobbies, **Alta Oakes** keeps busy in her spare time making baby clothes and crocheting for dolls. Where do you get all the ambition, Alta?

Brotherhood Week comes up this month, and we feel it would be nice to practice a brotherly feeling all year

round. Each in his own way could help make this week a success, realizing that in this great country of ours each of us, regardless of race, color, or creed, has the American right to express his opinion and live and worship as he pleases.

In this concern for which we work, it would be well to realize this, when we are inclined to make a snap judgement of someone, or something for which they stand.

Let's all try to make this week a success by trying to get along with everyone. And it is just as easy to say something nice and be pleasant to them. A lot of happiness comes from making friends with everyone.

In turn, we welcome **Betty Neveu** who has taken Margaret's place. Hope you like your work here, Betty, and your new friends.

Everybody is in the pin-up mood these days — some pin up cupids, some pin up hearts, some pin up "rogues' galleries" — it must be the Valentine spirit remaining in us.

**Colonel Adams** is now enjoying his stay in Washington, we hope. We would certainly like to be there now, especially when these March winds start blowing.

Some bespectacled girls look quite elegant with their new frames. Very nice, **Jan and Emily**.

The poodle cut is becoming quite popular around here. **Virginia Suprenant** is the latest one, with her semi-poodle.

Poor **Rose and Sue** were quite run down a few days last week. Best cure that we can suggest is at least six hours sleep every day or so.

We were very proud to see the picture of one of our celebrities in the Transcript recently — **Betty Saltamartini's** as Secretary of the I.C.G. Club. You must have a good press agent, Betty.

**Sports Editor - Kenny Russell**

Although suffering an unexpected defeat at the hands of Dalton, Adams needs only a victory over Pittsfield to cop the Northern Berkshire Championship. It is doubtful if Pittsfield can do the trick, however, as they were soundly beaten by Adams earlier in the season on their home court.

Should Pittsfield turn the tables, it will force a playoff between Adams and Pittsfield St. Joseph. The winner will meet either Seales or Lee who are all tied in their Southern Berkshire scramble. Pittsfield St. Joseph, by the way, has copped the Shire City Championship by turning back Pittsfield twice.

**Drury:**

Drury is out of the championship race, but Coach **Charlie Boisvert's** hoopsters deserve a word of praise for the battles which they gave Adams and Pittsfield St. Joseph and the trouncing given to Pittsfield, after having been eliminated from title consideration earlier in the year. They are playing inspiring basketball and it is too bad they waited so late in the season to find themselves.

**St. Joseph, North Adams:**

St. Joe came up with its best game of the season but were forced to bow to a much superior Drury team, score, 64-39. St. Joseph has yet to turn in a victory and unless they come up with a banner performance it looks like a winless season for the parochial school.

St. Joseph has lost the services of **Jimmy DeSanty** for the remainder of the season as he suffered a dislocated shoulder in the third quarter of the game with Drury.

**Dalton:**

Although not boasting an impressive record, Dalton has the distinction of handing the league-leading Adams team its only defeat of the season.

Dalton got away to an early lead and had Adams, 29-13, at the half. But it was forced to play heads up ball to squeeze by a belated Adams rally which brought the deficit to 3 points. Dalton won, 46-43. Incidentally, this was the second time Dalton had used its new basketball court and the enlarged surface not only allowed more people to see the game but must have inspired the Paper Town lads as they played their banner game of the season. Dalton's record is now 4-6.

**Williamstown:**

Williamstown is having a very poor season and looks nothing like last year's quintet which took Drury into camp twice. The College-towners are something of a disappointment to its followers this season as they were expected to give all of the league teams stiff competition. However, something is amiss and some of the basketball games are as rough as football. In a recent contest, some 54 personal fouls were called in addition to 6 technicals. 5 of which were called on Williamstown. The one bright scoring star for the College town boys is **Walt Reynolds**, a prolific scorer.

Here are the League Standings as of February 15:

Team	Won	Lost
Adams.....	9	1
Pittsfield St. Joseph.....	9	2
Pittsfield.....	6	4
Drury.....	6	5
Dalton.....	4	6
Williamstown.....	2	9
No. Adams St. Joseph.....	0	10

1. It relieves your mind of the troublesome thought that eventually the return must be prepared.
2. If you need assistance, the Internal Revenue Department can give you more time the earlier you file.
3. Returns prepared in a hurry during the last few days result in considerable errors which might mean an excessive amount of taxes paid by you. It is also possible at a later date that the audit of the return would result in a deficiency assessment on which you would have to pay interest at the rate of 6%.
4. If a refund is in order, the remittance check can be forwarded to you at a much earlier date.

Employees of the Collector's Office are ordinary, hardworking men and women like ourselves. Just as you prefer to have your work load reasonable at all times, that is their human desire. By delay in filing your return, unintentionally you are placing an avalanche of work on their shoulders. Why not resolve to file your return without delay.

February Is Heart Month

Where Your Heart Money Goes

Of the money which you give to your local Heart Association, 60% will stay right here in Berkshire County. It will go to support the Berkshire County Chapter of the Massachusetts Heart Association which was organized in July, 1951. Right now, this association is supporting a heart clinic in Pittsfield which is open upon referral to any heart victim who cannot afford medical care.

The other 40% of your heart gift is broken down as follows: 25% goes to the National American Heart Association and 15% to the Massachusetts Heart Association for administration program and principally for research.

Have a heart for those who have heart trouble; support Heart Month.

How Much Do You Know About Your Income Tax?

A Ten-Minute Quiz Which May Save You Money and Help You Fill Out Your Federal Income Tax Form

Editor's Note: Whether or not you can find anything humorous in paying your income tax, you will want to test yourself with this tax quiz. It is based on material furnished by the American Institute of Accountants, the national professional society of certified public accountants—which claims that although taxes are a serious subject, sometimes a light approach helps people learn more about how they may save money with Uncle Sam's blessings.

1. Is Your Mother-in-Law Worth \$600?

Your mother-in-law moved in with you on January 1, 1951. She is dependent on you for everything except conversation. However, she has a small pension of \$599 a year, which she keeps for herself. Can you list her as a dependent on your tax return?

...Yes. ...No. ...It all depends.

Answer. It all depends. If the \$599 pension is all the income she has—and you spent more than that in taking care of her—then she is a dependent. That means she is a \$600 exemption on your return.

The rule about dependents is simple. You may take a \$600 dependency exemption for anyone closely related to you by blood or marriage, provided that you contributed more than half his upkeep and his total taxable income is less than \$600 for the year. Any dependency exemptions, of course, are in addition to the personal exemption of \$600 you take for yourself.

2. Sawing a Married Couple in Half

Although you married your wife because you thought she had a legacy, it turns out that she has no income of her own. In fact, because she spends most of your pay check, she really has less than no income. Can the two of you split your income on a joint tax return?

...Yes. ...No. ...Perhaps.

Answer. Yes, you can—and married couples can nearly always save money by filing joint returns. You can file a joint return with your wife as long as you were married and living together on the last day of the year, or if your wife died during the year. It makes no difference whether your wife has any income of her own—or whether you get married on January 1 or December 31.

3. Form vs. Expediency

You usually file a simplified form 1040A and take the standard deduction of ten per cent of your income. Your wife says you ought to figure up your actual deductions on a long form 1040, because it might save you money. Is this a case of doing it the hard way?

...Yes. ...No. ...Your wife is always right.

Answer. Your wife may be right. Most wage earners file a simplified form 1040A (used only when total income from all sources is \$5000 or less) or a short form 1040 (used only when income from wages or salaries is \$5000 or less and income from other sources is not more than \$100) and take the standard ten per cent deduction. However, many could save money by itemizing their actual deductions on a long form 1040. If your actual deductions amount to more than ten per cent of your income, then you have to file a long form 1040 in order to claim them. Your best bet is to check your deductions carefully to find out which form is best for you.

4. Home, Sweet Home (Taxwise)

You have just received a bill of \$341 from the roof repairman who replaced the shingles blown off your house in the hurricane last fall. The monthly mortgage payment is due at the bank. Your town property tax bill of \$225

is expected any day. Should you sell the house and move to the hills?

...Immediately. ...Next Month.

...You should grin and bear it.

Answer. Taxwise, you can probably afford to grin and bear it.

Home owners have a number of tax advantages. The interest on your mortgage, for example, is deductible on your tax return. So are real estate and property taxes, as well as casualty losses which are not offset by insurance. (An additional deductible item is interest on home repair and other loans.)

In today's market, selling your home might result in a tax problem. Suppose it cost you \$8000 in 1946, you have made no improvements, and you sell the house today for \$12,000. You have to pay a tax on the \$4000 difference unless within one year before or after you sell your old house, you buy another which costs at least \$12,000. If you build a house costing \$12,000, you must occupy it within one year before or 18 months after your sale. However, if you sell the house at a loss, you cannot take a deduction.

5. It Almost Pays To Be Unhealthy

Your wife had twins in June, and as a result you were forced to go to the hospital for a two-month rest cure. You feel that the doctor must have charged twice as much for the twins as he would for one infant, and furthermore that it costs so much to keep well that you are better off sick. Should you show your strength of character by paying only half of your bills?

...Yes. ...No. ...Refuse to pay at all.

Answer. Your credit rating is entirely up to you. However, in a case like this, you should keep close track of your doctor and hospital expenses, since you may have an allowable medical deduction on your return.

You can deduct medical expenses in excess of five per cent of your adjusted gross income, up to certain limits. If either you or your wife is over 65 years of age, you may deduct all of the medical expenses of both, subject to a special ceiling limitation. (Carefully check the instructions with your tax forms for an explanation of adjusted gross income, and of what your maximum for medical deductions may be.)

Many people are not aware of the variety of medical expenses which are deductible. Hospital, nurse, dentist and doctor bills (not offset by insurance) are obvious ones. Others include cost of drugs, eyeglasses, dentures, tooth paste and brushes, wheelchairs, crutches and other medical equipment.

6. Your Records Are Their Business

You have listed on your return a few deductions (such as a personal bad debt, which actually represents your wife's losses at Canasta) which are slightly questionable. However, you figure that there's not one chance in a thousand that anyone from the Revenue Bureau will ever bother to check your tax return—and besides, everyone cheats on his tax return. Is this a safe attitude?

...Certainly. ...Certainly not. ...Sing Sing offers free vacations.

Answer. Certainly not. Actually, only a very small number of taxpayers try to cheat on their tax returns. When you list deductions on your tax return, be sure that you can prove them. In other words, keep receipts on such things as doctor or hospital bills, property tax bills, and the like. The government spot-checks income tax returns. Although the Revenue Bureau takes a reasonable attitude, many people have had deductions disallowed because they had no logical proof.

BASIC RULES TO FOLLOW

Although these foregoing examples may be somewhat out of the ordinary, they illustrate six basic rules you should follow in making out your tax return:

1. Take all your legitimate exemptions.
2. If married, you should usually file a joint return.
3. Be sure to choose the right form. Check your total deductions to see if you should itemize them on a long form 1040.
4. Do not neglect all the deductions that may result from your owning your own home.
5. If you had heavy medical expenses, see whether you have an allowable medical deduction.
6. Be sure you have reasonable proof of your deductions.

And here are some additional suggestions:

1. Your return is due March 15. File early—and avoid last-minute mistakes that might cost you tax money.
2. If you made less than \$600 last year, but had taxes withheld by your employer, remember that you must file a return in order to get your refund.
3. Remember that you have to file a Declaration of Estimated Income for 1952 by March 15 if you (a) will have an income of over \$100 from any sources other than wages from which your employer withholds the tax, and your total income is \$600 or more—or (b) your wages from which taxes are withheld amount to more than the total of \$4500 plus \$600 for each exemption.
4. If you have any questions about your return, the nearest office of the Bureau of Internal Revenue will help you. The Government has issued a pamphlet of instructions which you should get from the local Bureau office—and which demonstrates clearly the Government's attitude that it wants no one to overpay his income tax.
